

## Biological Reserve List of Amphibians

SPOTTED SALAMANDER

photo by Tom D. Schultz

This list includes those amphibian species that have been observed at the Biological Reserve. We welcome any additions or observations, which may be left in the map box or sent to Whitney Stocker or Tom Schultz in the Dept. of Biology and Denison University. Please indicate the species and location of your sighting. An inventory of the amphibians of the Reserve is published in:

**Schultz, T. D. and J. R. Mick. 1998. A survey of amphibian species richness and breeding habitats at the Denison University Biological Reserve (Licking County, Ohio). *Ohio Biological SurveyNotes*1:31-38.**

**KEY:** A = large aggregations in breeding season, C = common (should see or hear in breeding season), U = uncommon (present, but not certain to be found during breeding season), O = occasional (seen only a few times each year), R = rare (seen at intervals of 2-5 years);
